• **USGA Regression Method**

Compares the scores of the tied players from the back nine (holes 10–18) in order, starting with the largest number of holes. If there's still a tie, the method continues to the last six holes (holes 13–18), then the last three holes (holes 16–18), and finally the 18th hole. The score can be gross or net, depending on the award. If the competition uses a multiple tee start, the "last nine holes" refers to holes 10–18, and so on.
