### USGA Regression Method

Compares the scores of the tied players from the back nine (holes 10–18) in order, starting with the largest number of holes. If still tied, it continues to the last six holes (holes 13–18), then the last three (holes 16–18), and finally the 18th hole. For net awards, the handicap strokes that actually fall on those holes (by each hole's stroke index) are deducted. The flight's gross winner is determined first as the outright low score and is then excluded from the net award.

### Tiebreakers

Flight A NET — the gross winner is excluded, leaving a tie at net 73; Jonathan Perrin won on the back nine (holes 10–18).
